- Technical Skills: JavaScript (ES6+), React.js, Next.js, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB.
- Tools: Git, GitHub, VS Code, Vercel, Netlify, Firebase, Postman.
- Interpersonal Skills: Analytical Thinking, Agile Workflow, Continuous Learning, Team Collaboration.

PROJECTS

WarmPaws – Pet Care Platform

A full-stack single-page application (SPA) providing pet care services, featuring expert profiles, seasonal tips, and service booking.

React.js • Firebase • Tailwind CSS • Swiper.js • Framer Motion • AOS

Live link: brilliant-paprenjak-1b134.netlify.app

- Developed a winter pet-care SPA featuring service listings, expert vet profiles, and winter care tips for pet owners.
- Implemented Firebase Authentication with Google Sign-In, protected service detail routes, and toast-based feedback.
- Designed a responsive, animation-enhanced UI using Framer Motion and AOS with a cozy winter aesthetic.
- Included an interactive service booking form with real-time validation and profile update functionality.

Book Store – Online Library

A dynamic bookstore platform built with Next.js App Router, featuring real-time search, filtering, and a secure admin dashboard.

• Firebase • Tailwind CSS • Vercel

Live link: <https://book-store-chi-two-54.vercel.app/>

- Built a full-featured book store app using Next.js App Router with public and Firebase-protected pages.
- Implemented multi-field filtering (category, price, rating) and a search bar across a responsive grid of book listings.
- Created dynamic item detail pages (/items/[id]) with full book info, specifications, and related items.
- Developed protected Add and Manage pages with form validation, toast notifications, and clean CRUD table UI.
